Medium @clement.baron8

Product Designer

I design accessible, user-centred products, and I am specialising in the public sector. Passionate about the technical side of design, I am particularly interested in design systems and in the link between design and development.

Design skills

Discovery

- User & stakeholder interviews
- Current-state analysis
- Needs priorisation
- Co-design workshops

UX

- User journeys & information architecture
- Coded prototyping (React/ Next.js, HTML/CSS)
- User testing

UI

- Iterface visual identity
- Design tokens & components
- Micro-interactions

Tools

- Figma
